(a) profiles; shaded area $= D$
early bend
late bend
single sigmoid
double sigmoid
circular arc
$P_\gamma(q)$
quantile q
(b) same unsigned profile, $D = 0$
$\kappa = 0.45|\sin s|$
$\kappa = 0.45\sin s$
(c) near-straight line, 0.15% dimple
pure: base
pure: dimpled
hybrid: base
hybrid: dimpled
$P(q)$
quantile q
